

**Use Science, Not Guesswork  
To Get Ready For Finals.**

**ORGANIZE · PLAN · PREP · STUDY**

**PREP FOR FINALS PART 1: WORKSHOP**

This **Saturday workshop** will guide students through:

- creating study folders,
- identifying areas of study they don't understand,
- developing questions for teacher meetings, and
- developing plans for exam preparation.

The first portion of the workshop will include sorting and filing the work for each class.

Students will create one file per test and evaluate their knowledge of the material as they build their folders.

The remainder of the workshop will be spent developing study strategies and questions for clarity when meeting with teachers.

The students should bring their test schedule, binders, loose papers, textbooks (if they are annotated), and all tests and quizzes that they can find.

**They will leave the workshop with a specific plan to be prepared and confident for exams.**

## PREP FOR FINALS PART 2: **STUDY SESSIONS**

Three six-hour study sessions are included on the days of your choice:

- Sessions will take place in [The StudyPro homework center](#).
- Work plans created in the Workshops will be the basis of the student's work in the study sessions, guaranteeing we are "working the plan".
- Homework center coaches assist with both subject-matter help (math, English, history) as well as staying on plan with studying.
- Students can attend any 3 homework center sessions of their choosing but must register 24 hours in advance. They can stay for as long as we are open (6 hours per session):
  - Sunday - 10am - 4pm
  - Monday - Thursday: 3:30pm - 9pm
- A summary of their study work plan and the work completed will be emailed home after each session.

**They will leave each study session having "worked their plan" and with an understanding of what work they have left, if any.**

**(DETAILS AND REGISTRATION on next page)**
